

DIESEL FUEL ANTI-GEL

- **WINTERIZER**
- **DE-ICER**
- **LUBRICATOR**

PRODUCT BENEFITS

- Love's Diesel Fuel Anti-Gel is designed to prevent diesel fuel gelling and fuel-filter-icing during winter months
- To prevent diesel fuel gelling use every time you fill-up when temperatures drop below freezing
- Love's Diesel Fuel Anti-Gel is safe for use in all diesel engines
- This anti-gel is formulated to be effective in winterizing a broad range of Ultra Low Sulfur diesel fuels including fuels blended with biodiesel
- Lubricates pumps and injectors to prevent premature wear caused by Ultra Low Sulfur diesel
- Protects up to 250 gallons

DIRECTIONS FOR USE

To prevent fuel gelling when temperatures drop below 32°F, add the entire 64 FL OZ container to each 250 gallons of diesel fuel. To prevent fuel gelling in extremely cold temperatures below 0°F, add the entire 64 FL OZ container to each 125 gallons of diesel fuel.

PART NUMBER 3739-06
64 FL OZ (1.893L)
